

CASE/New Holland Skid Steer Doors.

Options: Single or Dual Wiper Arm

Single Wiper Arm

Dual Wiper Arm

The CASE/New Holland doors have two options. The differences are where the wiper holes are located as you can see highlighted in yellow. We differentiate them based on the wiper itself. The wiper has a single arm or a dual arm.

For ordering CASE/New Holland doors please be specific on which door you need. Both doors are the same in every other aspect.
